- Easy to grow
- 'French' style salad
- Tasty and nutritious

Sow Plant out Harvest

Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec

SOWING AND GROWING
Choose a sunny position and sow thinly into a finely raked, warm, moist soil, or in pots in bands approx. 9cm (3½") wide, covering the seed lightly and firming the soil gently. Thin resulting seedlings if required to around 3cm (1") apart. Grow on keeping the soil moist. It should be possible to take the first 'clipping' with scissors 14-20 days from sowing. Harvest the seedlings some 3cm (1") above the soil to allow the young plants to produce new leaf growth. It should be possible to repeat this process 2-3 times, but we recommend a fortnightly sowing to ensure mini salad production throughout the summer. It is important for the best taste to harvest leaves at a young stage. For gardens, grow bags or tubs on the patio.

SPEEDY VEG Ready in just **2-3** weeks

Quality Control: This seed has been carefully tested to ensure high germination. Prior to use, store in a dry cool place.
