

SUTTONS

Growing your own veg...
made simple!

The easy way to sow seeds

- Pre-spaced seeds in a tape — less 'thinning' out!
- 5m (16½') of tape
- For outdoor growing

SUTTONS

Growing your own veg... made simple!

LETTUCE Little Gem (Cos)

Sweet, tasty and full of vitamins
5m (16½') of seed tape

Lettuce seedling

How to grow your lettuce...

- 1 Choose a sunny spot in the garden with weed-free soil. Dig and rake the soil to a fine crumbly surface.
- 2 Using the corner of a hoe or rake draw a groove into moist soil.
- 3 Roll out the tape along the groove.
- 4 Cover lightly with soil. Keep the soil moist. Watch your lettuce grow — it's *GrowEasy!*
- 5 Thin the seedlings to around 15–20cm (6–8") apart. (You can use the thinnings for salads.)

- For a constant supply of lettuce sow at two weekly intervals.
- Remember, you can cut the tape to suit row length.
