**SUTTONS**

Growing your own veg... made simple!

**SPRING ONION** White Lisbon

Excellent in salads and stir-fries

5m (16½') of seed tape

Spring Onion seedling

**How to grow your onions...**

- 1 Choose a sunny spot in the garden with weed-free soil. Dig and rake the soil to a fine crumbly surface.
- 2 Using the corner of a hoe or rake draw a groove into moist soil.
- 3 Roll out the tape along the groove.
- 4 Cover with soil. Keep the soil moist. Watch your spring onions grow — it's *GrowEasy!*
- 5 If necessary, thin the seedlings to around 2cm (¾") apart.
  - If growing more than one row, allow 30cm (12") between rows.
  - For a constant supply of spring onions sow at two weekly intervals.
  - Remember, you can cut the tape to suit row length.
