Growing your own veg... made simple!

## LEAF SALAD Italian Mix

Tasty crisp salad in just 3-4 weeks  
5m (16½') of seed tape

Leaf Salad seedlings

### How to grow your leaf salad...

- 1 Choose a sunny spot in the garden with weed-free soil. Dig and rake the soil to a fine crumbly surface.
  - 2 Using the corner of a hoe or rake draw a groove into moist soil.
  - 3 Roll out the tape along the groove.
  - 4 Cover lightly with soil. Keep the soil moist. Watch your leaf salad grow — it's *GrowEasy!*
  - 5 Thin the seedlings to around 3cm (1") apart.
- For a constant supply of salad leaves sow at two weekly intervals.
  - Remember, you can cut the tape to suit row length.
  - Clip with scissors 3cm (1") above soil to allow plants to grow again.
  - You can leave your tapes 'un-separated' as a 'mat' for use in window boxes or tubs.
