SUTTONS

Growing your own veg... made simple!

TOMATO COLLECTION

Contains 1 mat each of: *Gardener's Delight*, *Moneymaker* and *Marmande-Beef*.

How to grow your tomatoes...

- 1 Fill 9cm (3½") pots with a good quality compost to approx. 13mm (½") from the top and firm gently.
- 2 Place a seed mat on the surface of the compost of each pot.
- 3 Cover the mats with a little sieved compost, approx. 6mm (¼"), and water to moisten the compost — allow to drain.
- 4 Cover pots with a piece of paper and maintain a temperature of 18-21°C (65-70°F). Remove paper when seeds begin to sprout.
- 5 At two leaf stage, transfer seedlings singly into 9cm (3½") pots and grow on.
- 6 When the plants have grown to fill their pots, plant out into large containers, growing bags, or direct into the greenhouse border. Can also be planted outside when frost risk has passed. Allow 45cm (18") between plants.
