**SUTTONS**

Growing your own veg... made simple!

**PEPPER COLLECTION**

Contains 1 mat each of: *Worldbeater* (large), *Chilli De Cayenne* (medium hot) and *Corno di Torro Rosso* (long).

**How to grow your peppers...**

- 1 Fill 9cm (3½") pots with a good quality compost to approx. 13mm (½") from the top and firm gently.
- 2 Place a seed mat on the surface of the compost of each pot.
- 3 Cover the mats with a little sieved compost, approx. 6mm (¼"), and water to moisten the compost — allow to drain.
- 4 Cover pots with a piece of paper and maintain a temperature of 18-21°C (65-70°F). Remove paper when seeds begin to sprout.
- 5 At two leaf stage, transfer seedlings singly into 9cm (3½") pots and grow on.
- 6 When the plants have grown to fill their pots, plant out into large containers in the greenhouse or conservatory or in warmer areas in the garden. Allow 35-45cm (14-18") between plants.

• Support plants with canes as required and feed regularly.

**Quality Control:** This seed has been carefully tested to ensure high germination. Prior to use, store in a dry cool place.  
Suttons Seeds, Paignton, England
