"Growing vegetables can be fun and very rewarding. Not only do you get that 'fresh from the garden taste', but also genuine health benefits, since freshly picked vegetables are the highest for vitamin content.

Try my organically produced seed and get a taste for gardening"

- Organically produced seed
- Excellent flavour

Sow    Plant out    Harvest

**sowing & growing**

Sow in a propagator on a windowsill or one seed per 75mm (3") pot in a greenhouse at approx. 20°-25°C (68°-70°F) using a good quality compost. Cover seeds with 19mm (¾") compost. Grow on carefully planting out when frost risk has passed, 60cm (24") between plants each way. Can also be sown direct outside 2 seeds per station at a depth of 25mm (1"), thinning to strongest seedling. Grows best in rich, moisture retentive soil in a sunny position. Water and feed regularly.

**quality control:** This seed has been carefully tested to ensure high germination. Prior to use, store in a dry cool place.

Standard Seed.  
EC rules and standards.
