**sowing & growing**

Sow thinly direct into finely raked, moist, warm soil at a depth of 6-13mm (¼-½"). Thin resulting seedlings to 23-30cm (9-12") between plants removing any competing weeds. Grows best in well cultivated soil in a sunny position. Harvest seed when flower heads turn brown and hang stems upside down indoors.

**quality control:** This seed has been carefully tested to ensure high germination. Prior to use, store in a dry cool place.
